

**MESSAGE**

The Manipur Staff Selection Commission was established with the mandate to conduct examinations for the selection of candidates for appointments to subordinate services and posts under the Government of Manipur.

The operationalisation of the Commission marks a significant step towards fostering public trust in the State's recruitment system by ensuring transparency and fairness.

I congratulate the Commission on the launch of their official website, which represents a crucial step in providing timely and accessible information to the public. The integration of Information Technology will play a transformative role in modernising and streamlining the recruitment process. I am confident that the Commission will continue to take further progressive steps to strengthen its functioning and uphold the highest standards of integrity and efficiency.
